Look us up online! We have an extensive number of pictures of most of our parts and technical diagrams for your convenience!

Modern Chevrolet Company has been in business under the same ownership since 1933 and has one of the largest parts departments in the General Motors organization.

Our stability, size and commitment to service should make us your first stop in search for quality restoration parts.

Direct Source for GM Parts

As a major General Motors wholesale dealer, we stock thousands of new GM and reproduction restoration parts. We are constantly adding new parts to our inventory and attempt to never be out of normal stocking items. We will advise you of out-of-stock items at the time of your order.

Competitively Low Prices

Our volume buying means that we receive the lowest cost from our suppliers. We pass this on to you and always attempt to offer the **lowest overall** prices in the restoration business. Catalog prices are subject to change without notice. (We only increase prices when there are increases by our suppliers).

Quality Parts

We use only new GM and high quality reproduction parts, and constantly review our vendors to insure that we are buying the best parts available for any application.

Prompt Customer Service

In case of a problem, we will take care of the situation immediately. While we may need some help from you on handling damaged shipments or shortages (see Ordering Information & Return Policies on the back of the order forms), we do not hold up shipping a replacement part while waiting on claim results from the delivery company.

Look for the MADE IN USA Logo. Some include the flag if the description line gives us enough room. With or without the flag means the same thing. As you know from shopping Wal-Mart, Target, Best Buy, etc., USA is hard to find. We try to offer MADE IN USA parts when possible. We rely on information from our many suppliers regarding country of origin, so please let us know if you receive a part we mark USA that is obviously imported so we can correct our listing.

Understand, we offer many correct high quality reproductions and in many cases there is no USA alternative. We just want to offer and designate parts made in our country as much as possible.

ORDERING INFORMATION

Please Read Carefully!

Customer Number

Please have your customer number available when calling. If you are a first time caller, once you have placed an order, you will be assigned a customer number for future references. The customer number helps us to identify you if there is more than one customer with the same name. This will eliminate any confusion and allow our personnel to access and process your order more efficiently.

Catalog Number

In order for us to serve you better, please supply us with the catalog number on the front cover or at the top of the order forms in the back of the catalog. This will enable us to send you an updated catalog with your order.

Credit Card Payment Method

If you are planning to use a credit card for payment, please have credit card type, number and expiration date ready when calling so that your order is processed in a timely manner and will not create any unnecessary delays.

Ordering Parts

Most all products listed in our catalog have part numbers. Please have a list of these part numbers ready before calling to place an order. Having these part numbers available will speed up the ordering process. You can order over the phone with a credit card or place prepaid orders by phone to insure accuracy. If you prefer, you can mail or fax credit card & prepaid orders using order forms in the back of the catalog. NC residents, add 7.75% sales tax. Personal checks will be held 15 days to clear.

Prices

Every attempt is made to insure accuracy of prices at time of catalog printing. However, all prices are subject to change without notice. Before placing your order, if you would like, ask your sales associate to call out current computer prices as you order each item. **Ask one of our salesmen about volume discounts!**

**ORDER FORMS
AND RETURN
REQUEST FORMS
IN THE BACK OF
THE CATALOG!**

The form is titled "ORDER FORM" and includes the Classic Muscle logo. It has sections for "PLEASE GIVE US YOUR STREET ADDRESS" and "PLEASE TELL US ABOUT YOUR CAR". Below these are fields for "NAME", "ADDRESS", "CITY", "STATE", "ZIP", "PHONE", "FAX", "E-MAIL", "CREDIT CARD", and "CHECK". There is a table with columns for "PART NUMBER", "DESCRIPTION (please include details)", "QTY", "PRICE", and "TOTAL". At the bottom, there is an "IMPORTANT!" section with checkboxes for "CASH", "CREDIT CARD", "CHECK", and "MONEY ORDER". It also includes a "TOTAL" field and a "SUB TOTAL" field.

©1995-2014 Classic Muscle from Modern Chevrolet. All rights reserved. This publication or any part thereof may not be reproduced in any form without written permission from Modern Chevrolet. Any errors in application, description, prices, part numbers or diagrams are subject to correction. All prices are subject to change without notice. Please ask your sales representative to verify price.

NOTICE:

When placing an order, always present your catalog number located on the front cover to the salesperson to verify that your catalog is current. Current catalogs can be packaged with your order at no cost. We are constantly adding new parts, therefore on average, we update catalogs regularly during the year.

Just A Reminder!

PRICES

Every attempt is made to insure accuracy of prices at time of catalog printing. However, all prices are subject to change without notice. Manufacturers change prices daily, which can influence our sale prices. For the most up to date prices, PLEASE SEE OUR WEBSITE: www.classicmuscle.com or call one of our sales associates at 1-800-722-4828.

ORDERING PARTS

Most all products in our catalog have part numbers. Please have a list of these part numbers ready before calling to place an order. You can also order parts using our website. This is the simplest and quickest way to get up to date listings and pricing. We also run promotions and discounts on the website throughout the year.

SHIPPING

We offer shipping via Fedex, UPS and USPS. We also offer LTL Truck Freight for those items too large for ground service. Freight charges are based on actual weight plus any required special packaging. There is an additional charge for oversize packages.

LTL Truck Freight shipments must be inspected at time of delivery.

RETURNS

Before returning any part, you must call us for a "Return Authorization Number." Any package returned without this number will be refused. Please see the "Return Authorization" page in the back of this catalog or on our website for more information on returns.

PARTS

Any part number in our catalog that ends with the letters "GM" is a genuine GM part. If a number does not end with these letters, it is a reproduction part. If a part is being reproduced in more than one quality and there is a significant price difference, we will offer you both choices in this catalog. If there is no significant price difference, we only offer you the best choice!

Some reproduction parts are licensed by GM to be GM Restoration Parts, although this does not have much, if any, impact on the quality of these parts. Just because a part is a GM Restoration part does not guarantee that it is the best reproduction made. Even if a part is a GM Restoration Part, it's part number still does not end with "GM" in our catalog.

Thank you for your business!

NEED A PICTURE?

www.classicmuscle.com

Each year specific catalog is available for download on our website! Find your specific part from our catalog or website.

Go to the search box and type in the part number exactly as it is in our catalog (dashes, letters, etc.) and it will display a picture of that part. If we do not picture the part you are looking for, please let your sales rep know or e-mail us at: **classic@modernauto.com**.

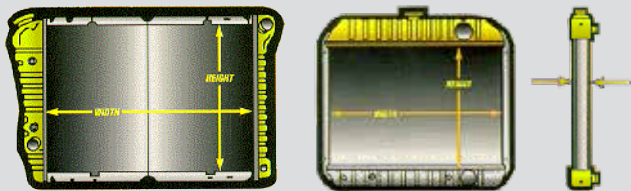

Radiators

***Note:** If you have internet access, we suggest that you look at radiator specs on our web site. This will give you a diagram of the radiator including all measurements. If you don't have internet, we can mail pictures of the radiators if there is any doubt regarding the correct radiator for your application.

How To Measure A Radiator

Measure only the core in order to determine the size of the radiator. Always measure the height with the tubes (the direction of the coolant flow). To determine the width, measure the core only. Do not include the side channels or mounting brackets.

To measure core thickness, use a small diameter wire and insert it through the core until the end is flush with the other side. Hold the wire flush to the core with your thumb and forefinger, remove the wire and measure it. Length of the wire from thumb and forefinger to end will equal the core thickness.

***Note:** Please specify automatic vs. manual transmission, factory air vs. no air and desired cores when placing your order.

***Note:** For Radiator Supports & Components, see Section 10.

ALUMINUM RADIATORS (U.S. Radiator)

***Note: While others piece together an aluminum radiator or boast about rib patterns that are little more than dimples on flat stock, U.S. Radiator's Desert Cooler all - aluminum performance radiator line is meticulously engineered for form, fit and high performance cooling. Each component is precisely die stamped in accordance with original equipment look and fit and engineered for maximum cooling and durability. Radiators consist of 2 rows of 1" tubes, die stamped tanks, all-aluminum core (no epoxy), 18 fins per inch high efficiency core.**

Recommended Booster

8" Dual Slimline Booster

Best fit for 58-64 GM. The small size is great for a number of applications and the dual diaphragm gives a good amount of assist.

RPB8531U Free* (Also available in Chrome, See Below)

There are a few important things to consider when choosing a booster. You need a minimum of 16-18 inches of vacuum for the proper operation of any size booster. No vacuum, No power assist! A larger diaphragm will generate more assist given the same amount of vacuum. Adding a second diaphragm will increase assist 25-30%.

We highly recommend the 8" Dual Slimline booster pictured above. It has a clean look and is one of the more powerful booster we carry. If you need more room to clear a big block, try a 7" Dual Slimline or for a different look a 9" Delco Style.

7" Dual Slimline

A good booster when room is tight. Great for BB cars with tall valve covers. Roughly the same assist as a 9" single.

RPB7537CU	Chrome Plated.....	25.00* ea.
RPB7537SU	Polished Stainless.....	60.00* ea.

8" Dual Slimline

Our most powerful "Slimline" booster. 10%-15% more assist than a 9" single. Compact to fit most applications.

RPB8531U	Standard Gold.....	No-Charge Upgrade*
RPB8531CU	Chrome Plated.....	25.00* ea.
RPB8531SU	Polished Stainless.....	60.00* ea.

9" Single Slimline

Nice clean looks and performance that won't disappoint. A good choice if you're undecided on which booster is right for your car.

RPB9002U	Standard Gold.....	No-Charge Upgrade*
RPB9002SU	Polished Stainless.....	60.00* ea.

9" Single Delco

Factory "correct" for 64-66 GM.

Used in 67+ for an original look w/o the room for an 11" booster.

Available with or w/o Delco stamping.

RPB9021U	Standard Gold.....	No-Charge Upgrade*
RPB9021CU	Chrome Plated.....	25.00* ea.

Booster Brackets

Most 58 Chevys use short brackets (BBK002). 59-64 cars use tall brackets (BBK004). The high-rise bracket (BBK006) is used to clear tall valve covers and big blocks.

Dated Plug Wire Sets

Authentic Reproduction Spark Plug Wire Sets

In order to satisfy the most discriminating enthusiast/restorer, we offer authentic reproduction spark plug wire sets. These spark plug wires provide the finishing touch for any original or restored vehicle. They are built using original GM blue prints, cut to the exact lengths to provide a tailored look and contain the correct factory script on the wire as well as the correct spark plug boots. (Note: 1961 cars built prior to January of 61 would not use dated wires.) See information below on how to order dated wires.

Dating of Wires: Beginning in January of 1961, GM began dating spark plug wires for their own internal identification. Research has shown that most cars had wires dated from 1 to 4 quarters prior to the build date of the car. This equates to an actual time period of one (1) to twelve (12) months.

These sets are available using the First (1-Q) and the Third (3-Q) quarter of each year starting in 1961. Second and fourth quarter dating is not available at this time nor should it be necessary due to the wide spread of one (1) month to twelve (12) months previously mentioned.

A production run of specified model actually began in September or October of the previous year. Example: The first 1961 models actually left the assembly line in September or October of 1960. Keeping this in mind, you should determine when your car was manufactured and order the year and quarter for your spark plug wires accordingly.

Year	Vehicle Build Date	Spark Plug Wire Date
61	September 60 - February 61	Not dated
	March 61 - August 61	1-Q-61
62	September 61 - February 62	3-Q-61

"Factory-Fit harnesses are the standard by which all others are measured!"

The premier manufacturer of quality wiring harnesses for General Motors vehicles from 1955 thru 1980.

Factory-Fit® wiring harnesses has become widely known as the symbol of excellence in reproduction wiring components. When the Factory-Fit® logo is on your wiring harness, you are guaranteed the finest reproduction wiring harness or battery cable manufactured for your car.

NO COMPROMISES • ORIGINALITY • QUALITY • AMERICAN MADE

Factory-Fit® uses original GM components and reproduces every harness to original GM specifications. Where original parts are not available, new parts are fabricated to original factory specifications. In the interest of safety and longevity, original design concepts are improved upon to provide our customers with the highest quality product available.

We will unconditionally refund the purchase price of any uninstalled or unaltered harness that does not meet the original specifications for which it was designed. Special modified harnesses are not returnable and not refundable. Special modifications made by customer design are not warranted. Returned harnesses must be in unused condition and must be in the original packaging. Failure to do so will void the return policy. Factory-Fit® warrants harnesses from manufacturing defects and will repair or replace the harness for a period of one year from the date of original purchase. The warranty applies to the original purchaser and is not transferable. This warranty does not cover delivery fees. A purchase receipt will be required. The warranty covers normal consumer use and does not cover damage which results from alteration, accident, misuse, abuse, neglect, improper installation or improper care and maintenance. Under any circumstances, the liability of the manufacturer shall be limited to the original cost of the harness paid by the customer and the manufacturer shall not be liable for any damages (consequential or incidental) which occur as a result of the use of any of our harnesses. This limit on liability may vary in your state and may have additional rights and/or remedies depending on the state in which you live.

Classic Muscle stocks harnesses based on sales popularity, any non-stocked harnesses can be quickly drop shipped.

Classic Muscle realizes that some harnesses are very expensive, therefore like most all other products we offer, our prices are pre-discounted.

With Factory-Fit® quality and Classic Muscle pricing, there's no need to look elsewhere!

If you have used Factory-Fit® harnesses in the past, you are already aware of the difference in our harnesses. If you haven't, then it's time to realize that it costs no more to use the Factory-Fit® mark of excellence.

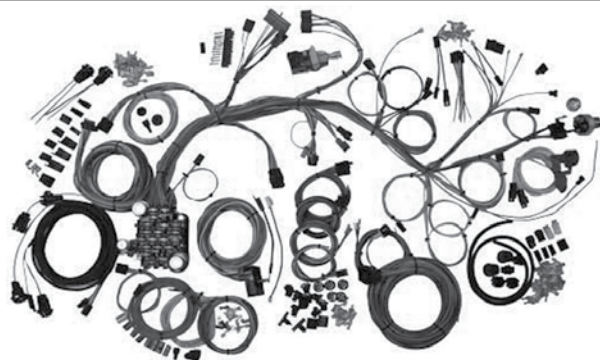

SECTION 8 - WIRING HARNESSES

59-60 WIREKIT27 Update Harness Kit.....629.00 kit

- 1- A replacement headlight switch with internal 30 amp circuit breaker, retention collar nut, adjustable length shaft, and custom knob.
- 2- Standard turn signal and hazard flashers are mounted on fuse panel. A new horn relay is mounted on the main dash harness.
- 3- Fuse box designed to fit in original location with mods to the firewall, template included. All required hardware supplied. New ATO fuse panel allows for easy fuse and circuit breaker accessibility. Harness is laid out and formed to allow for nearly all after market accessories such as; gauge packages, wiper systems, heat and air conditioning systems, etc.
- 4- Original switch connector bodies - an American Autowire exclusive feature
- 5- Steering column connectors can plug directly into most aftermarket steering columns or stock 1959-60 GM columns that use stock GM turn signal switches.
- 6- Separate under dash courtesy lamps for use along with your original dome/interior lighting.
- 7- Instrument Cluster wiring is designed with a 'cluster harness disconnect' system for easy service and assembly. Original terminals and connectors (another American Autowire exclusive) are provided for stock cluster connections. The system will also connect into most popular aftermarket gauges such as AUTOMETER, CLASSIC INSTRUMENTS, STEWART WARNER, VDO, and others.
- 8- Rear body harness assembly plugs into the main harness in the stock location and our longer leads allow for stock or custom routing of the wires. Rear body wiring includes backup light lead wires with correct lamp sockets or connectors, stop and tail light lead wires with correct lamp sockets, terminals, connectors and lamp sockets to mate with the license plate lamp, and fuel tank sender wire with trunk grommet and tank connection.
- 9- New floor dimmer switch is provided for ease of installation. Wire length and connection accommodate original floor mount dimmer switch.
- 10- GM bulkhead connectors for the engine and front light wiring are included (another American Autowire exclusive) and allow for easy installation with original or custom routing.
- 11- Engine wiring includes connectors for original points type as well as H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM 'SI' series internally regulated alternators. GM 'CS' series alternator adapter is available separately.
- 12- Front lighting includes extra long leads that can be routed for stock or optional appearances. All head light, parking light and directional light connectors and terminals are provided along with a switched trigger wire for an electric fan relay (usually recommended with AC).
- 13- Original style light sockets, switch body connectors, terminals, etc.

Please note: Classic Update Kits do not support Ammeters

NOTICE

PLEASE READ - CHECK BEFORE YOU SIGN!

Every major body part that you order is inspected prior to shipping. No body part should be considered perfect.

Sheet metal is easily damaged and small dings are considered "**normal**". No credit will be issued for parts because of minor flaws and imperfections, nor will we pay to return the part. Even factory parts have minor flaws and that cannot be controlled using mass production.

Classic Muscle always tries to package and ship your parts so that damage will not occur, but sometimes things happen beyond our control that our packaging will not protect. Always inspect your merchandise before the freight driver leaves. Just because the box looks "OK" does not mean the parts are not damaged. If any parts are damaged, you must write on the delivery receipt "**Freight Damaged**" before the driver leaves. If this procedure is not done, there is not much we can do to resolve the problem.

Classic Muscle accepts no responsibility for damaged parts. Do not return damaged parts to Classic Muscle before calling for instructions.

ALTERED PARTS ARE NOT RETURNABLE!
**PLEASE TEST FIT BEFORE SANDING,
PRIMING OR PAINTING!**

The "Pawl" is the small bracket which attaches to the end of the door cylinders. The pawl is what actually reaches in and trips the latch for the door to unlock.

In 1958-64 (2) different styles and lengths of door cylinders were used. The (2 door) hardtop and convertible models used the long cylinder, with (4 door) and Sedan models using short cylinders. When possible it is best to check old original door locks for their specific cylinder style and pawl requirements.

Go to the search box and type in the part number exactly as it is in our catalog (dashes, letters, etc.) and it will display a picture of that part. If we do not picture the part you are looking for, please let your sales rep know or e-mail us at: classic@modernauto.com.

SECTION 14 - LOCK CYLINDER SETS

The "Pawl" is the small bracket which attaches to the end of the door cylinders. The pawl is what actually reaches in and trips the latch for the door to unlock.

In 1958-64 (2) different styles and lengths of door cylinders were used. The (2 door) hardtop and convertible models used the long cylinder, with (4 door) and Sedan models using short cylinders. When possible it is best to check old original door locks for their specific cylinder style and pawl requirements.

Individual lock cylinders are located in appropriate sections.

62-64 Vinyl Seat Upholstery from PUI

PUI seat upholstery is high quality in material and workmanship, as well as originality and fit. Vinyls are rerun to match GM's original colors while matching or exceeding factory specifications. All products meet the FMVSS 302 fire prevention standards and meet cold crack tolerances. Production of seat upholstery also includes insurance of fit on a set of frames. All seat covers have a two-year warranty against defects in materials and workmanship.

Pre-Assembled Door Panels

There are two types of pre-assembled door panels (PAD's) available, front with metal top rails and rear with ABS plastic top rails.

Pre-Assembled Front Door Panels

Includes inner window felt, door lock rod ferrule, attaching clips, and upper and/or lower trim molding and buttons as required per model. All components are completely assembled and ready for installation. 1962-64 standard and pre-assembled panels also include windlace and matching vinyl for arm rest pads and attaching clips and buttons as required.

Metal Top Rails

(when PAD's are not offered)

These require your old top rails (*additional \$50 charge if not cleaned*). Panels are assembled on new boards with front metal door banks, welded door nail fasteners and inner window felt (outer felts are also included). Also includes pre-sewn rear arm rest covers, windlace, front arm rest material and colored kick panels are required per model. ***Note: PAD's with your metal rails are the only option for 1959-61 Impala and 1962 Bel Air.**

58 Impala Seat Covers & Door Panels

Seat covers are pre-sewn and use the correct grain vinyl and multicolored striped cloth. Includes covers for seats and rear center arm rest. ****For seat components such as seat foam, seat springs, rubber bumpers, knobs, etc., see Section 16.***
