

1960-1987 TRUCK/C10 CATALOG

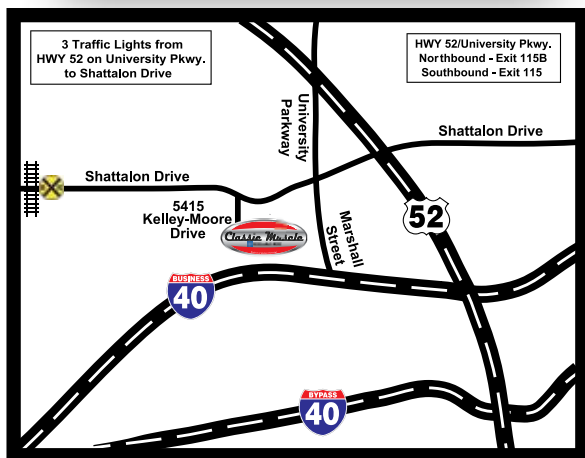

Classic Muscle Restoration Parts

BUSINESS HOURS: 8:00 am - 5:30 pm • Monday - Friday
University Parkway to Shattalon Drive to the end of Kelley-Moore Drive

We feel the best method of ordering parts is by telephone, so call our toll free number:
1-800-722-4828

As a major General Motors wholesale dealer, we stock thousands of new GM and reproduction restoration parts.

Toll Free: 1-800-722-4828

You can call us toll free
Monday through Friday
8:00 am to 5:30 pm (EST)
Please have all information ready in order for us to handle your order promptly.

Fax: 336-727-4856

You can fax us your order
7 days a week / 24 hours a day.
Please include all information in order for us to handle your order efficiently.

5415 Kelley-Moore Drive Winston-Salem, NC 27105

Mail us your order and please include all necessary information for us to process your order correctly.

www.classicmuscle.com

Look us up online! We have an extensive number of pictures of most of our parts and technical diagrams for your convenience!

Modern Chevrolet Company has been in business under the same ownership since 1933 and has one of the largest parts departments in the General Motors organization.

Our stability, size and commitment to service should make us your first stop in search for quality restoration parts.

Direct Source for GM Parts

As a major General Motors wholesale dealer, we stock thousands of new GM and reproduction restoration parts. We are constantly adding new parts to our inventory and attempt to never be out of normal stocking items. We will advise you of out-of-stock items at the time of your order.

Competitively Low Prices

Our volume buying means that we receive the lowest cost from our suppliers. We pass this on to you and always attempt to offer the lowest overall prices in the restoration business. Catalog prices are subject to change without notice. (We only increase prices when there are increases by our suppliers).

Quality Parts

We use only new GM and high quality reproduction parts, and constantly review our vendors to insure that we are buying the best parts available for any application.

Prompt Customer Service

In case of a problem, we will take care of the situation immediately. While we may need some help from you on handling damaged shipments or shortages (see Ordering Information & Return Policies on the back of the order forms), we do not hold up shipping a replacement part while waiting on claim results from the delivery company.

Look for the MADE IN USA Logo. Some include the flag if the description line gives us enough room. With or without the flag means the same thing. As you know from shopping Wal-Mart, Target, Best Buy, etc., USA is hard to find. We try to offer MADE IN USA parts when possible. We rely on information from our many suppliers regarding country of origin, so please let us know if you receive a part we mark USA that is obviously imported so we can correct our listing.

Understand, we offer many correct high quality reproductions and in many cases there is no USA alternative. We just want to offer and designate parts made in our country as much as possible.

NEED A PICTURE?

www.classicmuscle.com

Each year specific catalog is available for download on our website! Find your specific part from our catalog or website.

Go to the search box and type in the part number exactly as it is in our catalog (dashes, letters, etc.) and it will display a picture of that part. If we do not picture the part you are looking for, please let your sales rep know or e-mail us at:

classic@modernauto.com

The #1 SOURCE for Authentic
Chevrolet Restoration Parts!

ORDERING INFORMATION

Please Read Carefully!

Customer Number

Please have your customer number available when calling. If you are a first time caller, once you have placed an order, you will be assigned a customer number for future references. The customer number helps us to identify you if there is more than one customer with the same name. This will eliminate any confusion and allow our personnel to access and process your order more efficiently.

Catalog Number

In order for us to serve you better, please supply us with the catalog number on the front cover or at the top of the order forms in the back of the catalog. This will enable us to send you an updated catalog with your order.

Credit Card Payment Method

If you are planning to use a credit card for payment, please have credit card type, number and expiration date ready when calling so that your order is processed in a timely manner and will not create any unnecessary delays.

Ordering Parts

Most all products listed in our catalog have part numbers. Please have a list of these part numbers ready before calling to place an order. Having these part numbers available will speed up the ordering process. You can order over the phone with a credit card or place prepaid orders by phone to insure accuracy. If you prefer, you can mail or fax credit card & prepaid orders using order forms in the back of the catalog. NC residents, add 7.75% sales tax. Personal checks will be held 15 days to clear.

Prices

Every attempt is made to insure accuracy of prices at time of catalog printing. However, all prices are subject to change without notice. Before placing your order, if you would like, ask your sales associate to call out current computer prices as you order each item. **Ask one of our salesmen about volume discounts!**

**ORDER FORMS
AND RETURN
REQUEST FORMS
IN THE BACK OF
THE CATALOG!**

©1995-2014 Classic Muscle from Modern Chevrolet. All rights reserved. This publication or any part thereof may not be reproduced in any form without written permission from Modern Chevrolet. Any errors in application, description, prices, part numbers or diagrams are subject to correction. All prices are subject to change without notice. Please ask your sales representative to verify price.

NOTICE:

When placing an order, always present your catalog number located on the front cover to the salesperson to verify that your catalog is current. Current catalogs can be packaged with your order at no cost. We are constantly adding new parts, therefore on average, we update catalogs regularly during the year.

Just A Reminder!

PRICES

Every attempt is made to insure accuracy of prices at time of catalog printing. However, all prices are subject to change without notice. Manufacturers change prices daily, which can influence our sale prices. For the most up to date prices, PLEASE SEE OUR WEBSITE: www.classicmuscle.com or call one of our sales associates at 1-800-722-4828.

ORDERING PARTS

Most all products in our catalog have part numbers. Please have a list of these part numbers ready before calling to place an order. You can also order parts using our website. This is the simplest and quickest way to get up to date listings and pricing. We also run promotions and discounts on the website throughout the year.

SHIPPING

We offer shipping via Fedex, UPS and USPS. We also offer LTL Truck Freight for those items too large for ground service. Freight charges are based on actual weight plus any required special packaging. There is an additional charge for oversize packages.

LTL Truck Freight shipments must be inspected at time of delivery.

RETURNS

Before returning any part, you must call us for a "Return Authorization Number." Any package returned without this number will be refused. Please see the "Return Authorization" page in the back of this catalog or on our website for more information on returns.

PARTS

Any part number in our catalog that ends with the letters "GM" is a genuine GM part. If a number does not end with these letters, it is a reproduction part. If a part is being reproduced in more than one quality and there is a significant price difference, we will offer you both choices in this catalog. If there is no significant price difference, we only offer you the best choice!

Some reproduction parts are licensed by GM to be GM Restoration Parts, although this does not have much, if any, impact on the quality of these parts. Just because a part is a GM Restoration part does not guarantee that it is the best reproduction made. Even if a part is a GM Restoration Part, it's part number still does not end with "GM" in our catalog.

Thank you for your business!

Radiators & Components

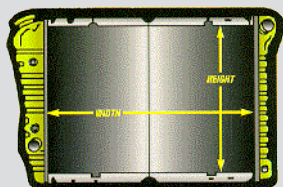

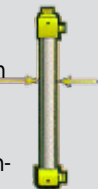

RADIATORS

***Note: If you have internet access, we suggest that you look at radiator specs on our web site. This will give you a diagram of the radiator including all measurements. If you don't have internet, we can mail pictures of the radiators if there is any doubt regarding the correct radiator for your application.**

How To Measure A Radiator

Measure only the core in order to determine the size of the radiator. Always measure the height with the tubes (the direction of the coolant flow). To determine the width, measure the core only. Do not include the side channels or mounting brackets.

To measure core thickness, use a small diameter wire and insert it through the core until the end is flush with the other side. Hold the wire flush to the core with your thumb and forefinger, remove the wire and measure it. Length of the wire from thumb and forefinger to end will equal the core thickness.

***Note: Specify transmission, A/C or no A/C and desired number of cores.**

***Note: Specify transmission, A/C or no A/C and desired number of cores.**

ALUMINUM RADIATORS (U.S. Radiator)

***Note: While others piece together an aluminum radiator or boast about rib patterns that are little more than dimples on flat stock, U.S. Radiator's Desert Cooler all - aluminum performance radiator line is meticulously engineered for form, fit and high performance cooling. Each component is precisely die stamped in accordance with original equipment look and fit and engineered for maximum cooling and durability. Radiators consist of 2 rows of 1" tubes, die stamped tanks, all-aluminum core (no epoxy), 18 fins per inch high efficiency core.**

** Must have a removable backing plate

63-70 Suspension Upgrade

Get late model technology for your early Chevy Truck. This upgrade uses 1973-87 ball joints and tie rod ends making future replacements a snap. **Available only for kits with new spindles.**

63-70	TSU6370		185.00	ea.
-------	---------	-------	--------	-----

This page includes standard kits with 11" Booster. See following pages for upgrades and options.

*Choice of Standard Height or 2 1/2" Drop Spindles

Recommended Booster

11" Single Delco Style

Factory "style" for 67-72 GM cars. No Delco stamp. Big and powerful. Can be a tight fit on some trucks. Standard Gold Finish.

RPB1003U No-Charge Upgrade* (Also available in Chrome, See Below)

There are a few important things to consider when choosing a booster. You need a minimum of 16-18 inches of vacuum for the proper operation of any size booster. No vacuum, No power assist! A larger diaphragm will generate more assist given the same amount of vacuum. Adding a second diaphragm will increase assist 25-30%.

We highly recommend the 11" single delco style booster pictured above. It is also the most powerful booster we carry. If you need more room to clear a big block, or will be mounting your booster down on the frame, consider one of our 7" or 8" dual slimline boosters.

7" Dual Slimline

A good booster when room is tight. Great for BB cars with tall valve covers. Roughly the same assist as a 9" single.

RPB7537U	Standard Gold.....No-Charge Upgrade*
RPB7537CU	Chrome Plated.....25.00* ea.
RPB7537SU	Polished Stainless.....60.00* ea.

8" Dual Slimline

Our most powerful "Slimline" booster. 10%-15% more assist than a 9" single. Compact to fit most applications.

RPB8531U	Standard Gold.....No-Charge Upgrade*
RPB8531CU	Chrome Plated.....25.00* ea.
RPB8531SU	Polished Stainless.....60.00* ea.

9" Single Slimline

Nice clean looks and performance that won't disappoint. A good choice if you're undecided on which booster is right for your car.

RPB9002U	Standard Gold.....No-Charge Upgrade*
RPB9002SU	Polished Stainless.....60.00* ea.

9" Single Delco

Factory "correct" for 64-66 GM. Used in 67+ for an original look w/o the room for an 11" booster. Available with or w/o Delco stamping.

RPB9021U	Standard Gold.....No-Charge Upgrade*
RPB9021CU	Chrome Plated.....25.00* ea.
RPB9016U	Standard Gold, w/ Delco Stamping.....30.00* ea.

11" Single Delco

Factory "correct" for 62-72 GM. Can be tight on the big block cars. Our most popular booster. Available with or w/o Delco stamping.

RPB1003U	Standard Gold.....No-Charge Upgrade*
RPB1003CU	Chrome Plated.....25.00* ea.
RPB1001U	Standard Gold, w/ Delco Stamping.....30.00* ea.

9" Dual Delco

Originally found on the Corvette. Assist roughly equivalent to an 11" Single with a little more room for valve cover clearance.

RPB9521U	Standard Gold.....No-Charge Upgrade*
RPB9513U	Black Coated.....No-Charge Upgrade*

* Upgrade price with purchase of any GM power disc conversion kit

DATED PLUG WIRE SETS

Authentic Reproduction Spark Plug Wire Sets

In order to satisfy the most discriminating enthusiast/restorer, we offer authentic reproduction spark plug wire sets. These spark plug wires provide the finishing touch for any original or restored vehicle. They are built using original GM blue prints, cut to the exact lengths to provide a tailored look and contain the correct factory script on the wire as well as the correct spark plug boots. (Note: 1961 cars built prior to January of 61 would not use dated wires.) See information below on how to order dated wires.

Dating of Wires: Beginning in January of 1961, GM began dating spark plug wires for their own internal identification. Research has shown that most cars had wires dated from 1 to 4 quarters prior to the build date of the car. This equates to an actual time period of one (1) to twelve (12) months.

These sets are available using the First (1-Q) and the Third (3-Q) quarter of each year starting in 1961. Second and fourth quarter dating is not available at this time nor should it be necessary due to the wide spread of one (1) month to twelve (12) months previously mentioned.

A production run of specified model actually began in September or October of the previous year. Example: The first 1961 models actually left the assembly line in September or October of 1960. Keeping this in mind, you should determine when your car was manufactured and order the year and quarter for your spark plug wires accordingly.

Year	Vehicle Build Date	Spark Plug Wire Date
61	September 60 - February 61	Not dated
	March 61 - August 61	1-Q-61
62	September 61 - February 62	3-Q-61

L.E.D OEM Style Bulbs

For the first time ever, a replacement bulb that will last as long as your car. Get the great look and color available from LEDs in your stock taillight sockets with these replacement 1157 and 1156 bodied bulb assemblies. Each bulb works as the original bulb did, but utilizes the newest technology available. Both decorative and utilitarian, LEDs use less energy and have that "instant on" everyone loves.

Get your set today!

(Use red in the taillights, use white for very bright back-ups and interior lighting, use amber for turn lamps and marker bulbs.)

NEED A PICTURE?

www.classicmuscle.com

Each year specific catalog is available for download on our website! Find your specific part from our catalog or website.

*Go to the search box and type in the part number exactly as it is in our catalog (dashes, letters, etc.) and it will display a picture of that part. If we do not picture the part you are looking for, please let your sales rep know or e-mail us at: **classic@modernauto.com**.*

"Factory-Fit harnesses are the standard by which all others are measured!"

The premier manufacturer of quality wiring harnesses for General Motors vehicles from 1955 thru 1980.

Factory-Fit® wiring harnesses has become widely known as the symbol of excellence in reproduction wiring components. When the Factory-Fit® logo is on your wiring harness, you are guaranteed the finest reproduction wiring harness or battery cable manufactured for your car.

NO COMPROMISES • ORIGINALITY • QUALITY • AMERICAN MADE

Factory-Fit® uses original GM components and reproduces every harness to original GM specifications. Where original parts are not available, new parts are fabricated to original factory specifications. In the interest of safety and longevity, original design concepts are improved upon to provide our customers with the highest quality product available.

We will unconditionally refund the purchase price of any uninstalled or unaltered harness that does not meet the original specifications for which it was designed. Special modified harnesses are not returnable and not refundable. Special modifications made by customer design are not warranted. Returned harnesses must be in unused condition and must be in the original packaging. Failure to do so will void the return policy. Factory-Fit® warrants harnesses from manufacturing defects and will repair or replace the harness for a period of one year from the date of original purchase. The warranty applies to the original purchaser and is not transferable. This warranty does not cover delivery fees. A purchase receipt will be required. The warranty covers normal consumer use and does not cover damage which results from alteration, accident, misuse, abuse, neglect, improper installation or improper care and maintenance. Under any circumstances, the liability of the manufacturer shall be limited to the original cost of the harness paid by the customer and the manufacturer shall not be liable for any damages (consequential or incidental) which occur as a result of the use of any of our harnesses. This limit on liability may vary in your state and may have additional rights and/or remedies depending on the state in which you live.

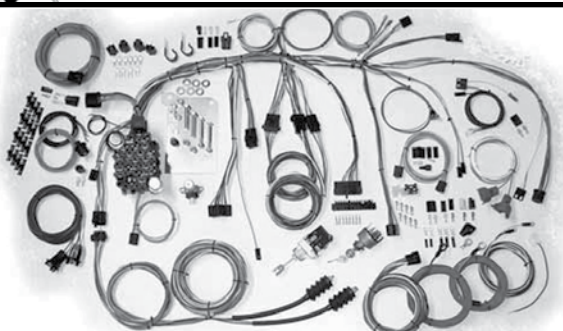

Classic Muscle stocks harnesses based on sales popularity, any non-stocked harnesses can be quickly drop shipped.

Classic Muscle realizes that some harnesses are very expensive, therefore like most all other products we offer, our prices are pre-discounted.

With Factory-Fit® quality and Classic Muscle pricing, there's no need to look elsewhere!

If you have used Factory-Fit® harnesses in the past, you are already aware of the difference in our harnesses. If you haven't, then it's time to realize that it costs no more to use the Factory-Fit® mark of excellence.

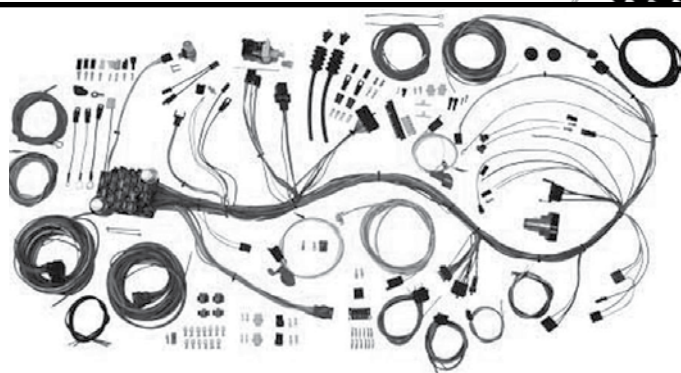

SECTION 8 - WIRING HARNESSSES

60-66 WIREKIT14 Update Harness Kit.....\$595.00 ea.

- 1- Standard turn signal flasher, hazard flasher, and horn relay mounted on fuse panel.
- 2- Fuse box and custom mounting plate are designed for bolt-in under dash installation. All required hardware supplied. Location selected for easy accessibility and clearance of under dash accessories such as all gauge packages, wiper systems, heating and air conditioning systems, and stock original or aftermarket GM tilt steering columns.
- 3- New floor dimmer switch is provided. Wire length and connection accommodate original floor mount dimmer switch.
- 4- Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for original cluster gauges. However, the best aspect to the disconnect system is that any gauge cluster package can be easily and neatly wired in. This includes AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL, STEWART WARNER, and VDO, just to name a few.
- 5- Along with wiring for your original dome/interior lighting we have included separate under dash light sockets.
- 6- Heater control panel lighting, power, and blower motor leads are included for original style heaters as well as aftermarket heat and AC updates such as HOTROD AIR, VINTAGE AIR, etc. Connections are also wired in for the glove box and cigarette lighter.
- 7- Engine wiring includes connectors for points type and H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internally regulated and all "one wire" alternators. GM "CS" series alternator connector available separately.
- 8- Front lighting includes extra long leads for special routing when custom under hood appearance is desired. All headlight, park light, and directional light connectors and terminals are provided, as well as a switched trigger wire for electric fan relay (usually recommended with AC).
- 9- Replacement headlight switch with internal circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included. Extra connectors and instructions are supplied for installation of original headlight switches.
- 10- If you choose to install a late model GM steering column with the ignition switch in the column we include the correct connectors for that as well!
- 11- Steering column connectors will plug directly into most aftermarket steering columns as well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be wired by using the supplied mating connector and terminals.
- 12- New ignition switch is included. Additional connectors and instructions are provided to use the original ignition switch or column mounted ignition switch.
- 13- Engine wiring includes starter and gauge sender leads for water temp, oil pressure, voltmeter, and tach. Heavy 8 gauge alternator leads are supplied. Power circuits are fusible link protected.
- 14- Rear body harness assembly is designed to plug into the main harness in the original position utilizing existing retainers. Flexibility in harness design allows for original or custom routing. Both pickup and suburban models are accommodated. Rear body wiring includes backup light wires and mating connectors for backup light leads. License plate lead, connectors, and terminals included. Fuel tank sender wire and terminal included. Leads and terminals included for jamb switches and dome light.
- 15- Color schematics and easy to understand installation instructions included.

Please note: Classic Update Kits do not support Ammeters

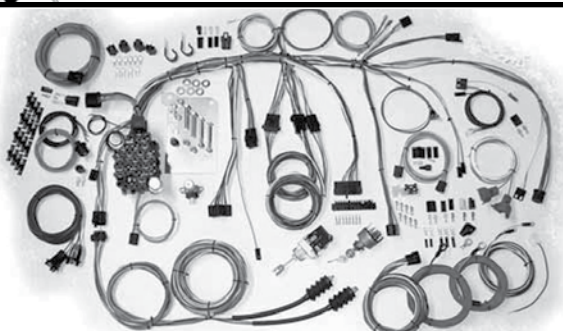

67-68 WIREKIT18 Update Harness Kit.....\$575.00 ea.

- 1- Replacement headlight switch with internal 30 amp circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included.
- 2- Standard turn signal flasher, hazard flasher, and horn relay mounted on harness.
- 3- Fuse box designed to fit in original location with slight firewall modification (template included). All required hardware supplied. New ATO fuse panel allows for easy fuse and circuit breaker accessibility. Harness is laid out and formed to allow for nearly all aftermarket accessories such as: gauge packages, wiper systems, heat and air conditioning systems, etc..
- 4- Original switch connector bodies!
- 5- Steering column connectors will plug directly into most aftermarket steering columns or stock 1967-68 GM columns that use stock GM turn signal switches.
- 6- Separate under dash courtesy lamps for use along with your original dome/interior lighting.
- 7- Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for stock cluster connections. The system will also connect into most popular aftermarket gauges such as AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL, STEWART WARNER, VDO and others.
- 8- Rear body harness assembly plugs into the main harness in the stock location and our longer leads allow for stock or custom routing of the wires. Rear body wiring includes backup light lead wires with rubber connectors, stop and taillight lead wires with correct light sockets and boot/tube assemblies for Fleetside trucks, or correct connections and terminals to mate with the tail lamp assemblies for Stepside trucks, license plate connection wire, side marker lead and ground wires with lamp sockets, and fuel tank sender wire and connection.
- 9- New floor dimmer switch is provided with extra long mounting screws for ease of installation. Wire length and connection accommodate original floor mount dimmer switch.
- 10- EXCLUSIVE! GM bulkhead connectors for the engine and front light wiring are included and ready for easy installation. Original or custom routing of the new harness is no problem!
- 11- Engine wiring includes connectors for original points type and H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internally regulated alternators. GM "CS" series alternator connector available separately.
- 12- Front lighting includes extra long leads that can be routed for stock or optional appearances. All headlight, park light, and directional light connectors and terminals are provided (including 1967 only parking lamp adapter extensions) along with a switched trigger wire for electric fan relay (usually recommended with AC).
- 13- Original style light sockets, connectors, terminals, etc. packed into every aspect of this harness; it makes it the most complete system of its type in the industry!
- 14- New ignition switch and keys are included with indexed connector.

Please note: Classic Update Kits do not support Ammeters

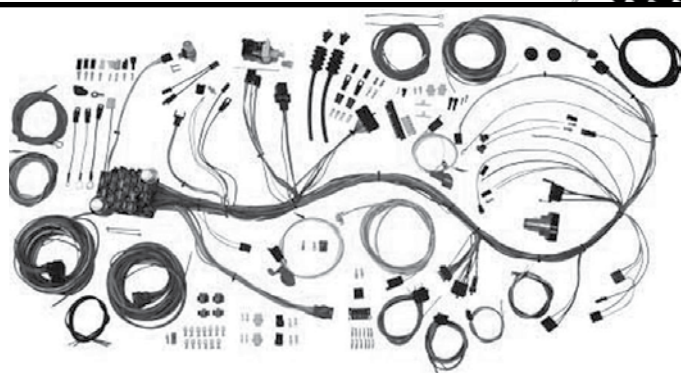

SECTION 8 - WIRING HARNESSES

69-72 WIREKIT15 Update Harness Kit.....\$75.00 ea.

- 1- Replacement headlight switch with internal circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included. Extra connectors and instructions are supplied for installation of original headlight switches.
- 2- Standard turn signal flasher, hazard flasher, and horn relay mounted on fuse panel.
- 3- Fuse box and custom mounting plate are designed for bolt-in under dash installation. All required hardware supplied. Location selected for easy accessibility and clearance of under dash accessories such as all gauge packages, wiper systems, heating and air conditioning systems, and stock original or aftermarket GM tilt steering columns.
- 4- Original switch connector bodies!
- 5- Steering column connectors will plug directly into most aftermarket steering columns as well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be wired by using the supplied mating connector and terminals.
- 6- Along with wiring for your original dome/interior lighting we have included separate under dash light sockets.
- 7- Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for original cluster gauges. However, the best aspect to the disconnect system is that any gauge cluster package can be easily and neatly wired in. This includes AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL, STEWART WARNER, and VDO, just to name a few.
- 8- Rear body harness assembly is designed to plug into the main harness in the original position utilizing existing retainers. Flexibility in harness design allows for original or custom routing. Both pickup and suburban models are accommodated. Rear body wiring includes backup light wires and mating connectors for backup light leads. License plate lead, connectors, and terminals included. Fuel tank sender wire and terminal included. Leads and terminals included for jamb switches and dome light.
- 9- New floor dimmer switch is provided. Wire length and connection accommodate original floor mount dimmer switch.
- 10-EXCLUSIVE! GM bulkhead connectors for the engine and front light wiring are included and ready for easy installation. Original or custom routing of the new harness is no problem!
- 11-Engine wiring includes connectors for points type and H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internal regulated and all "one wire" alternators. GM "CS" series alternator connector available separately.
- 12-Front lighting includes extra long leads for special routing when custom under hood appearance is desired. All headlight, park light, and directional light connectors and terminals are provided, as well as a switched trigger wire for electric fan relay (usually recommended with AC).
- 13-Color schematics and easy to understand installation instructions included.

Please note: Classic Update Kits do not support Ammeters

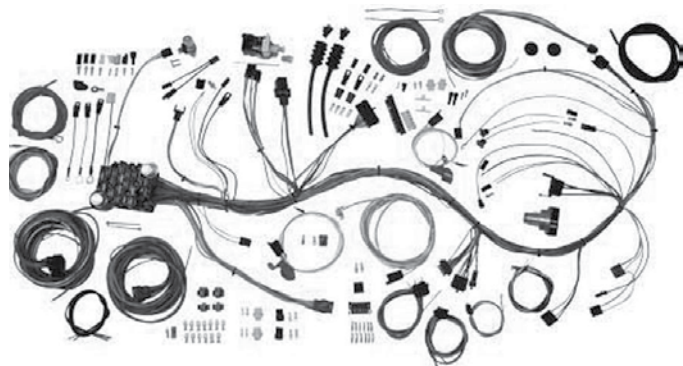

73-82 WIREKIT17 Update Harness Kit.....\$746.00 ea.

- 1- Replacement headlight switch with internal 25 amp circuit breaker, adjustable length shaft, and custom knob.
- 2- Standard turn signal flasher, hazard flasher, and horn relay mounted on harness.
- 3- Fuse box designed to fit in original location. All required hardware supplied. New ATO fuse panel allows for easy fuse and circuit breaker accessibility. Harness is laid out and formed to allow for nearly all aftermarket accessories such as: gauge packages, wiper systems, heat and air conditioning systems, etc.
- 4- Steering column connectors can plug directly into most aftermarket steering columns or stock 1975 and up GM columns. Can also be mated to earlier columns using the adapter and terminals included in the kit.
- 5- Separate under dash courtesy lamp assemblies are also included for use along with your original dome/interior lighting feeds.
- 6- Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. Original terminals and connector that will plug into the original gauge cluster are provided. The system will also connect into most popular aftermarket gauges such as AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL and VDO, just to name a few.
- 7- Rear body harness assembly plugs into the main harness at the main bulkhead disconnect location and longer leads allow for stock or custom routing of the wires. Rear body wiring includes backup light lead wires and connectors along with stop and taillight lead wires and connectors. License plate lamp lead connection as well as the fuel tank sender lead connection is also included.
- 8- Original style lamp sockets and side markers for fleetside and original style molded connections for stepside rear lamps are included.
- 9- New floor dimmer switch is provided for ease of installation. Wire length and connection accommodate original floor mount dimmer switch.
- 10-Engine wiring includes feeds for coil, tach, water temperature, oil pressure, electric choke, and electric speedometer (if needed). A heavy gauge alternative feed and fusible link are also included for any typical high output 1 wire or internally regulated alternator. Connectors supplied for power and tach leads for GM style H.E.I. distributors along with various oil and temp senders.
- 11-Front lighting includes extra long leads that can be routed for stock or optional appearances. All headlight, parking light, and directional light leads, along with a switched trigger wire for an electric fan relay (usually recommended with AC) are provided. Mating terminals and connectors are also provided for you to complete your custom installation.
- 12-New parking lamp socket and side marker lamp sockets are also included.

Please note: Classic Update Kits do not support Ammeters

SECTION 8 - WIRING HARNESSSES

83-87 WIREKIT23 Update Harness Kit.....827.00 ea.

- 1- Replacement headlight switch with internal 25 amp circuit breaker, adjustable length shaft, and custom knob.
- 2- Standard turn signal flasher, hazard flasher, and horn relay mounted on harness.
- 3- Fuse box designed to fit in original location with no mods to the firewall. All required hardware supplied. New ATO fuse panel allows for easy fuse and circuit breaker accessibility. Harness is laid out and formed to allow for nearly all aftermarket accessories such as; gauge packages, wiper systems, heat and air conditioning systems, etc.
- 4- Steering column connectors can plug directly into most aftermarket steering columns or stock 1975 and up GM columns. Can also be mated to earlier columns using the adapter and terminals included in the kit.
- 5- Separate under dash courtesy lamp assemblies are also included for use along with your original dome/interior lighting feeds.
- 6- Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. Original terminals and connector that will plug into the original gauge cluster are provided. The system will also connect into most popular aftermarket gauges such as AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL and VDO, just to name a few.
- 7- Rear body harness assembly plugs into the main harness at the main bulkhead disconnect location and longer leads allow for stock or custom routing of the wires. Rear body wiring includes backup light lead wires and connectors along with stop and taillight lead wires and connectors. License plate lamp lead connection as well as the fuel tank sender lead connection is also included.
- 8- Original style lamp sockets and side markers for fleetside and original style molded connections for stepside rear lamps are included.
- 9- Engine wiring includes feeds for coil, tach, water temperature, oil pressure, electric choke, and electric speedometer (if needed). A heavy gauge alternative feed and fusible link are also included for any typical high output 1 wire or internally regulated alternator. Connectors supplied for power and tach leads for GM style H.E.I. distributors along with various oil and temp senders.
- 10- Front lighting includes extra long leads that can be routed for stock or optional appearances. All headlight, parking light, and directional light leads, along with a switched trigger wire for an electric fan relay (usually recommended with AC) are provided. Mating terminals and connectors are also provided for you to complete your custom installation.
- 11- New parking lamp socket and side marker lamp sockets are also included.
- 12- Supports both single and dual headlight models.

NOTICE

PLEASE READ - CHECK BEFORE YOU SIGN!

Every major body part that you order is inspected prior to shipping. No body part should be considered perfect.

Sheet metal is easily damaged and small dings are considered "**normal**". No credit will be issued for parts because of minor flaws and imperfections, nor will we pay to return the part. Even factory parts have minor flaws and that cannot be controlled using mass production.

Classic Muscle always tries to package and ship your parts so that damage will not occur, but sometimes things happen beyond our control that our packaging will not protect. Always inspect your merchandise before the freight driver leaves. Just because the box looks "OK" does not mean the parts are not damaged. If any parts are damaged, you must write on the delivery receipt "***Freight Damaged***" before the driver leaves. If this procedure is not done, there is not much we can do to resolve the problem.

Classic Muscle accepts no responsibility for damaged parts. Do not return damaged parts to Classic Muscle before calling for instructions.

**ALTERED PARTS ARE NOT RETURNABLE!
PLEASE TEST FIT BEFORE SANDING,
PRIMING OR PAINTING!**

Front End Fastener Kits

TACH AND CLOCK CONVERSIONS

67-72	6468228K	V8 Tachometer Conversion Kit (includes tach, lens printed circuit, wiring harness & metal housing).....	259.00	kit
67-72	RP1478	V-8 Tachometer Conversion Kit 8000 RPM includes: Tach, Lens, Printed Circuit Wiring Harness & Metal Housing.	290.00	kit
67-72	TP044	Clock Conversion Kit with 5000 RPM Tach Dash Includes: Clock, Clock Harness, Lense, Front & Rear Gauge Housings & Clock Backing Plate (Replaces Vacuum Gauge).....	290.00	kit
67-72	TP045	Clock Conversion Kit with 8000 RPM Tach Dash Includes: Clock, Harness, Lense, Front & Rear Gauge Housings & Clock Backing Plate (Replaces Vacuum Gauge).....	290.00	kit
67-72	TP046	Tach & Clock Conversion Kit with 5000 RPM Tach, Includes: Clock, Clock Harness, Cluster Lens, Front & Rear Gauge Housings, Clock Backing Plate, Tach, Tach Harness, Printed Circuit (Clock Replaces Vacuum Gauge).....	445.00	kit
67-72	TP047	Tach & Clock Conversion Kit with 8000 RPM Tach, Includes: Clock, Clock Harness, Cluster Lens, Front & Rear Gauge Housings, Clock Backing Plate, Tach, Tach Harness, Printed Circuit (Clock Replaces Vacuum Gauge).....	445.00	kit
67-72	TP048	Tach & Vacuum Conversion Kit with 5000 RPM Tach.....	335.00	kit
67-72	TP049	Tach & Vacuum Conversion Kit with 8000 RPM Tach.....	385.00	kit

GAUGE CLUSTER KITS

(1967-1968)

67-68	TP038	Complete Cluster Assembly with 8000 RPM Tach & Vacuum Gauge	650.00	ea.
67-68	TP040	Complete Cluster Assembly with 5000 RPM Tach & Clock Conversion	695.00	ea.
67-68	TP041	Complete Cluster Assembly with 8000 RPM Tach & Clock Conversion	695.00	ea.

(1969-1972)

69-72	RP1360	Complete Dash Gauge Cluster Kit with 5000 RPM tachometer, no vacuum gauge.....	525.00	kit
69-72	TP039	Complete Cluster Assembly with 8000 RPM Tach & Vacuum Gauge	650.00	ea.
69-72	TP042	Complete Cluster Assembly with 5000 RPM Tach & Clock Conversion	695.00	ea.
69-72	TP043	Complete Cluster Assembly with 8000 RPM Tach & Clock Conversion	695.00	ea.

69-72	TP383	Complete Dash Gauge Cluster Kit w/5000 RP Tach & Vacuum Gauge - Includes: Speedometer, Tach, Temp, Amp, Fuel, Oil, Temp & Amp Gauge Backing Plate, Tach Wire Harness Instrument Lens, Instrument Lens Bumpers, Front & Back Gauge Housings, Turn Signal & High Beam Indicators Printed Circuit, Black & Chrome Bezel & Bulbs (Assembled).....	625.00	kit
69-72	TP550	Complete Dash Gauge Cluster Kit (No Tach or Vacuum Gauge), Includes: Speedometer, Temp, Amp, Fuel & Oil Gauges, Oil Gauge Backing Plate, Instrument Lens, Instrument Lens Bumpers, Front & Back Gauge Housings, Turn Signal & High Beam Indicators, Printed Circuits, Black & Chrome Dash Bezel & Bulbs (Assembled).....	489.00	kit

PRINTED CIRCUIT & SOCKET

67-72	6290457	Printed Circuit (exc. gauges or tach).....	49.00	ea.
67-72	6290458	Printed Circuit with Gauges (exc. tach)....	49.00	ea.
67-72	6290459	Printed Circuit (with gauge & tach option)	63.00	ea.
67-72	4254GM	Cluster Lamp Socket.....	1.20	ea.
67-80	4254R	Cluster Lamp Socket and Bulb	3.50	ea.

73-79	USA2739	All		165.00	ea.
80-88	USA2808	All		165.00	ea.

USA-6 AM/FM - CD CONTROLLER

***Features:** 240 watts, CD changer controller, separate bass & treble, four way fader, station pre-set, RCA pre-outs, seek & scan tuning & chrome face. Also features a digital display hidden behind an analog dial for more OE look.

64-66	USA66466T	All (chrome face).....		235.00	ea.
67-72	USA66772T	All (chrome face).....		235.00	ea.

Slidebar Radio

Custom Autosound's Slidebar Radio provides enthusiasts with a completely authentic looking classic car or truck stereo without sacrificing the latest technology. Best of all it will fit in your vehicle's dash without any modifications required. The Slidebar Radio provides the best in both worlds, a true working slidebar display and a full-featured digital display in the same stereo. Simply slide the bar in the center of the radio to the right and hide the analog slidebar revealing a full-featured digital display underneath. The slidebar is designed with large OEM style push-buttons to compliment the look of your classic car. Its digital display provides seven backlit color options designed to match the color of your dash instrumentation. When it comes to technology the Slidebar is designed with the best features available including a USB input for flash drives and a Dock for your iPod. When connected to these devices the radio's digital display will display artist, song, album and allow song navigation through the radio itself. The slidebar is compatible with our optional BLUKIT which enables bluetooth streaming from your enabled phone or device as well as hands-free mobile calling through the vehicles speakers & BLUKIT's built-in microphone. With 300 watts peak the radio provides plenty of power but additionally contains four pre-outs and one sub-woofer out. The Slidebar also comes with Aux-in for optional satellite radio as well as our optional compact CD/DVD player.
