

NISMO Off Road: FORGED UPPER CONTROL ARMS

Date: November 2022

Attention: Nissan Sales, Service, and Parts Managers

Nissan Motorsports is thrilled to announce the all new NISMO Off Road Forged Upper Control Arms for the D40/D41 Frontier, N50 Xterra and R51 Pathfinder. Designed to provide improved suspension articulation and to aid alignment on vehicles with raised ride height up to 6 inches*

These new control arms are constructed out of 6082 T-6 forged aircraft grade aluminum and feature OE style inboard rubber bushings, upgraded ball joints and ball joint covers for longevity and protection from dirt, grime, and other elements. Get yourself a pair of these incredible NISMO OFF-ROAD FORGED UCA's to give your truck that smoother, more enjoyable ride all while improving your on and off road capabilities!

*Prototype images may vary slightly from production

Features:

- Constructed from 6061 T-6 forged aircraft grade aluminum
- 17-4 stainless steel CNC-machined uni-ball adapters
- Factory OE style inboard rubber bushings
- Includes FK brand uni-balls
- Sealed uni-ball covers to keep out dirt and grime
- Fits stock height up to 6" of lift
- Sold in pairs

Ordering Instructions: Simple and easy through your existing DMS/NMPS order placement system!

Part Number	Description	Application	Labor Rate Estimate	DLN	MSRP
54525-ORUCA	NISMO OFFROAD FORGED UCA	FRONTIER 2005-UP XTERRA 2005-2015	1.5hr	\$555.00	\$750.00

Note: May require minor trimming of front coil buckets if used on vehicles raised more than 1.5"

*Nissan does not endorse raising the ride height of any vehicle beyond factory specifications for road use without confirmation of proper suspension alignment and ensuring the function of any ADAS systems.
