Frequently Asked Questions

Why add Perimeter Plus Vehicle Security?

- Perimeter Plus Vehicle Security Systems add shock/impact sensors to supplement the factory system for additional protection
- Advanced 2-stage shock sensor helps protect vehicle contents
- Alerts when it senses damaging impacts to body panels or glass
- Provides on-fob remote start function for added customer convenience
- Provides instant alarm alerts to customer's FordPass Connect app – even if they can't hear the alarm*
- Can be residualized in a Red Carpet Lease

The Vehicle has FordPass Connect, why would it need Perimeter Plus?

- Many low and mid-trim vehicles no longer have the 2X remote start button in the key fob
  - Remote start is handled by the FordPass Connect app on customer's cellphones
  - Many still want the convenience of being able to start the vehicle with the factory fob
  - Perimeter Plus offers a solution for those that want to be able to start their vehicle with the factory fob
  - For remote start using the factory fobs, press LOCK-UNLOCK-LOCK to start**

Can the shock sensor feature be adjusted or eliminated?

- **Yes** – the shock sensor is adjustable and can be turned off if the feature is not desired

Can Perimeter Plus be added to vehicles that already have the 2X remote start button on the factory fob?

- **Yes** – the system will provide shock sensor protection and the FordPass Security alert. These are great benefits for vehicles that require additional security to protect valuable vehicle contents and components!

Ford Perimeter Plus can add remote start functionality to factory fobs that do not have the 2X start button.

ENGINE START

Press…
LOCK-UNLOCK-LOCK
to start the vehicle!

* Vehicle must be equipped with FordPass Connect and factory perimeter alarm
** For 2018-2022MY vehicles. Vehicles without FordPass Connect require IDS/FDRS activation
